

PRODUCT INFORMATION

MULTICHANNEL VPN ROUTER 2620

Technical Specifications

Enclosure format	19" 1.5 U
Dimensions (WxHxD)	435 x 66 x 320 mm
Weight (ca.)	4.9 kg
Power rating	100–240 VAC, 50–60 Hz
Power supply	Integrated IEC socket
Working temperature	0–35° C
Fans: Number / Regulation / Control	3 / ✓ / ✓
LAN Interface	GBit Ethernet
WAN module slots	6
Max. power consumption	70 Watt
Typical power consumption	45 Watt
SNMP Basic / Extended	✓ / ✓
Bonding capacity Mbps	400
Recom. # of users in LAN	500

Features

- Real bonding of all connection bandwidths with / without TCP optimizing
- Quality of Service / traffic shaping
- NAT and port forwarding
- Monitoring (graphical and remote-syslog)
- Rule-based routing
- Traffic accounting via external server
- Multi-user web administration system
- Includes the Enterprise Node Features License

Delivery Content

- Multichannel VPN Router 2620
- Power cable
- Manual
- CD with software
- 2 angle brackets for inserting router into 19" rack
- Modules according to ordered choice

This 19"-sized router allows the bonding of up to six different WAN lines into a single, high-performance virtual link. Its maximum bonding capacity is 400 Mbps. By adding or substituting single hot plug modems, the network structure can be individually adapted to changing requirements. Thus, it offers long-term security of investment for medium sized and large businesses.

The router is particularly robust and persistent. With the included angle brackets, it can be mounted to 19" racks as well.

For establishing medium sized and large company networks, we recommend the combination with the Multichannel VPN Hub 5010.

This Viprinet router works with RuggedVPN firmware only and needs to have a subscription to Viprinet Lifetime Maintenance. Without a VLM license, updates and support will not be available.

ACCESSORIES

Hot Plug Modules (excerpt)

- Gigabit Ethernet
- VDSL2 / ADSL2+
- 4.5G Europe / Americas *
- 4.5G/GPS Europe / Americas *
- 4G Europe / Australia / Africa *
- 4G Europe LTE 450
- 802.11 B / G / N WLAN Client *

Optional Additional Licences

- Streaming Optimization
- Node Stacking
- Enterprise Node Features

*) RuggedVPN firmware required
